

WEB ANNOUNCEMENT

GOVERNOR OF VICTORIA EXPORT AWARD 2005

“In receiving this award for export business success, we very much feel we share it with our clients. We thank them for their support and look forward to providing excellent vetting advice and services for many years to come.”

Ship vetting specialist RightShip has been recognised in two categories at the prestigious Governor of Victoria Export Awards both in the Innovation Excellence and the Service Providers Awards, as a successful exporter of services to a global client base.

This is the first time RightShip has been recognised in this way outside the industry, for its outstanding success as a Victorian-based export business.

The judges responded to the way RightShip has taken an innovative idea and technical expertise and, in only four years, turned it into a thriving business, exporting services and know-how to clients in 15 different countries.

CEO Warwick Norman said: “The main reason RightShip has succeeded so well in such a short time is that meets a real, urgent need in the maritime industry. We now want to stay well ahead of competitors in our quality of service, and in our system’s comprehensiveness, cost-effectiveness and ease of use.

“In receiving this award for export business success, we very much feel we share it with our clients. We thank them for their support and look forward to providing excellent vetting advice and services for many years to come.”

The competition in each of the categories was of an excellent standard, and our congratulations go to each of the winners, and next time we hope to go one step further.

John Landy, AC, MBE, Governor of Victoria
and Warwick Norman, CEO & Manager,
RightShip.
